

[illegible][illegible][illegible]

Timeline of the 2019-2020 season showing the progression of the COVID-19 pandemic. The timeline is divided into four main periods: 'Early 2020' (March to May), 'Mid 2020' (June to August), 'Late 2020' (September to November), and 'Early 2021' (December to February). Key events are marked with colored bars and text labels. A red bar indicates the 'First wave' starting in March and peaking in April. A green bar indicates the 'Second wave' starting in June and peaking in July. A blue bar indicates the 'Third wave' starting in September and peaking in October. A yellow bar indicates the 'Fourth wave' starting in December and peaking in January. The timeline ends in February 2021.
